A photograph of a row of young trees planted in a field. Each tree is protected by a white plastic sleeve. The trees are in the foreground and middle ground, with a clear blue sky in the background. The image is split by a diagonal green line on the left side.

Part 1

An Introduction To Time4Trees

Time4Trees Business And Corporate Package

About Us

At Time4Trees, we aim to give everyone the chance to make a difference, whether it be large or small, by using local trees to help solve a global, ongoing problem. We create new forests and environmental biodiversity in areas where this would otherwise not exist. By planting UK-based trees that are currently all based in the South East of England where the carbon emissions are significantly high, reaching some of the worst levels in the country, we are planting in the most crucial locations.

When we create your forest, we do so with native trees specially selected to restore pieces of unused land to beautiful, natural woodland. Furthermore, we provide a 10-year maintenance program, and necessary replacement service as standard with every one of our trees to ensure they reach their full maturity. The land where trees are planted will be kept permanently as forestry for 100+ years.

Planting Locations

1

Atlas Park - Dartford site, Kent

100 Acres of tree planting land, overlooked by the Dartford bridge with permission to plant 40,000+ trees.

2

Norlands Lane - Thorpe, Surrey

106 Acres of tree planting land, besides Heathrow airport with permission to plant 55,000+ trees.

3

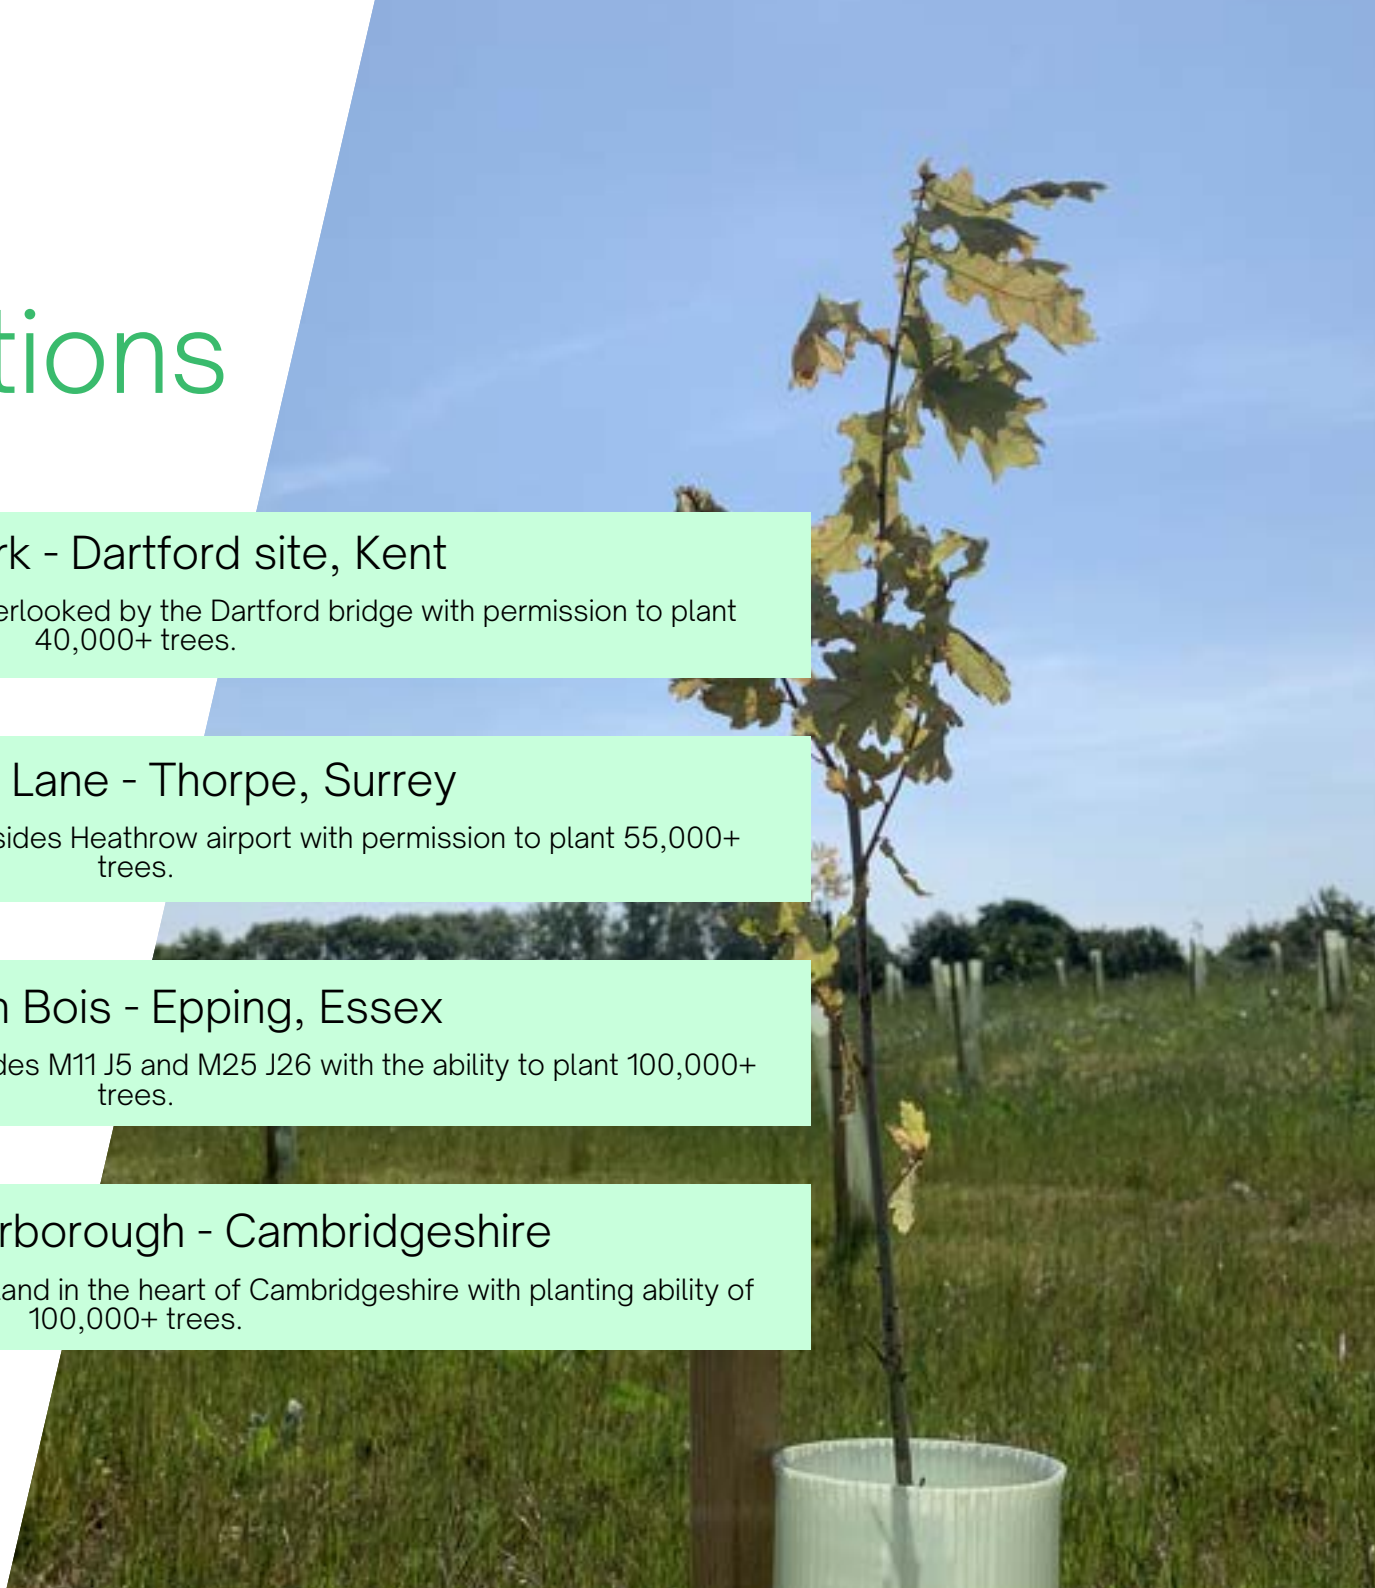

Theydon Bois - Epping, Essex

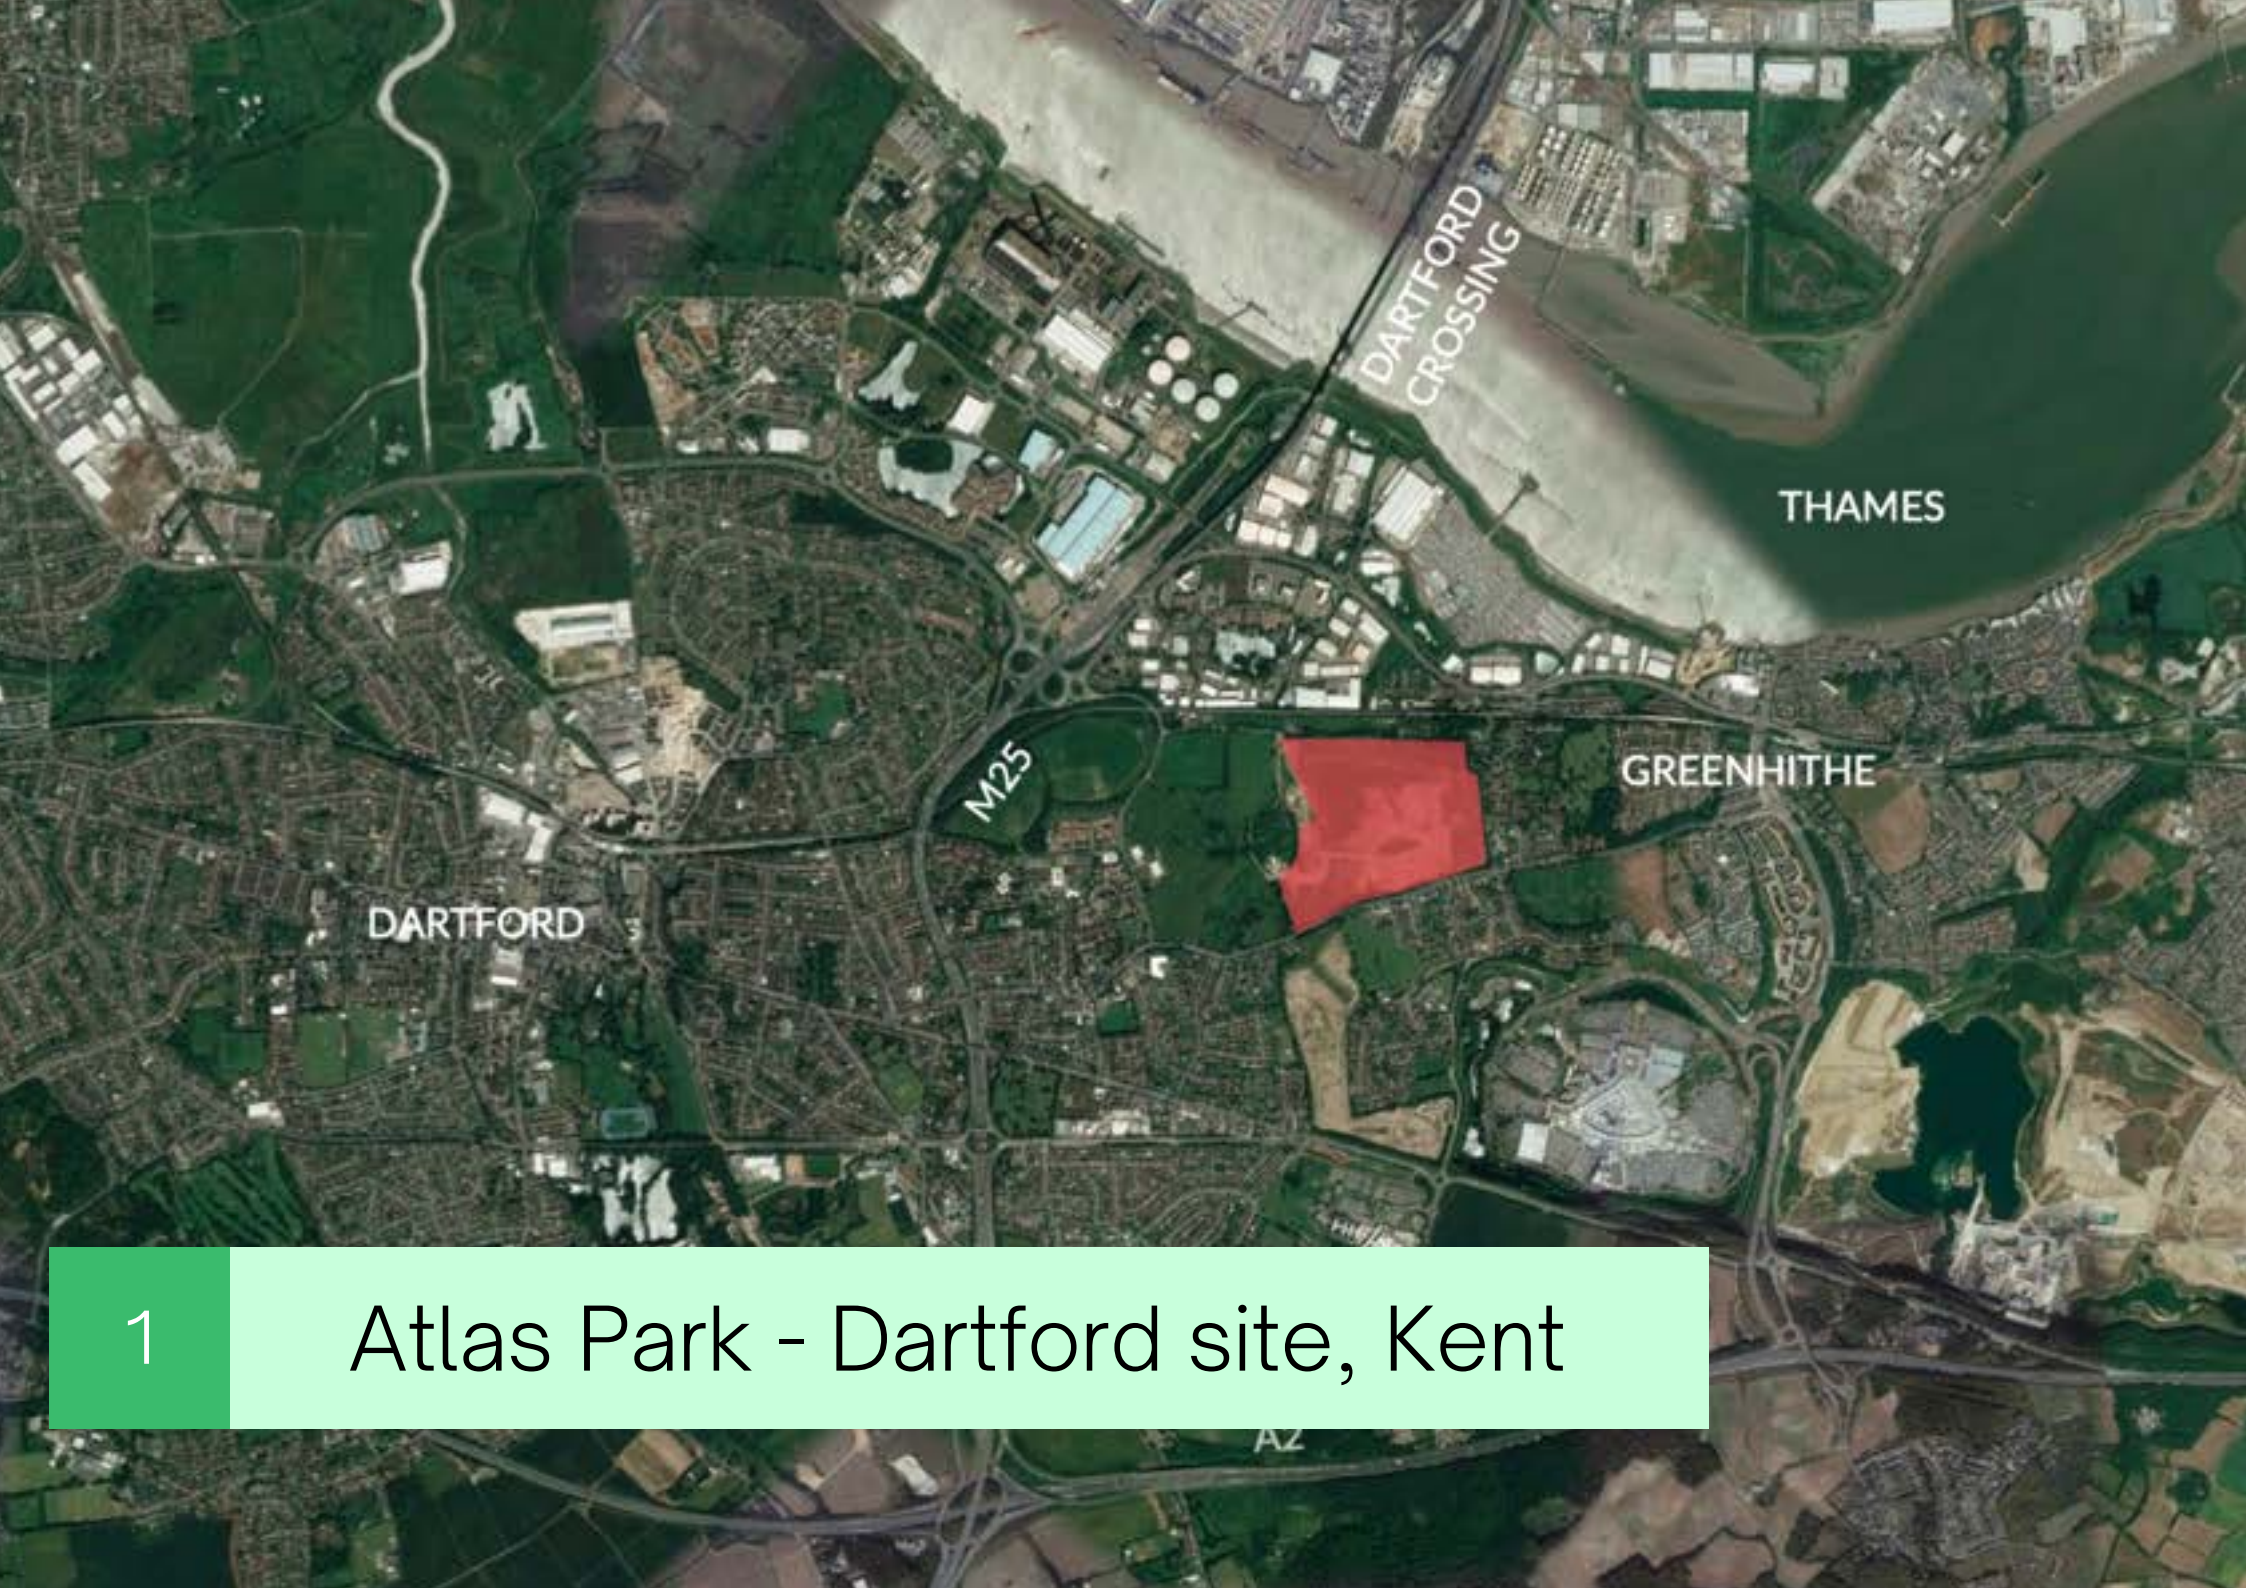

110 Acres of tree planting land, besides M11 J5 and M25 J26 with the ability to plant 100,000+ trees.

4

Thorney Peterborough - Cambridgeshire

146 Acres of potential tree planting land in the heart of Cambridgeshire with planting ability of 100,000+ trees.

1

Atlas Park - Dartford site, Kent

2

Norlands Lane - Thorpe, Surrey

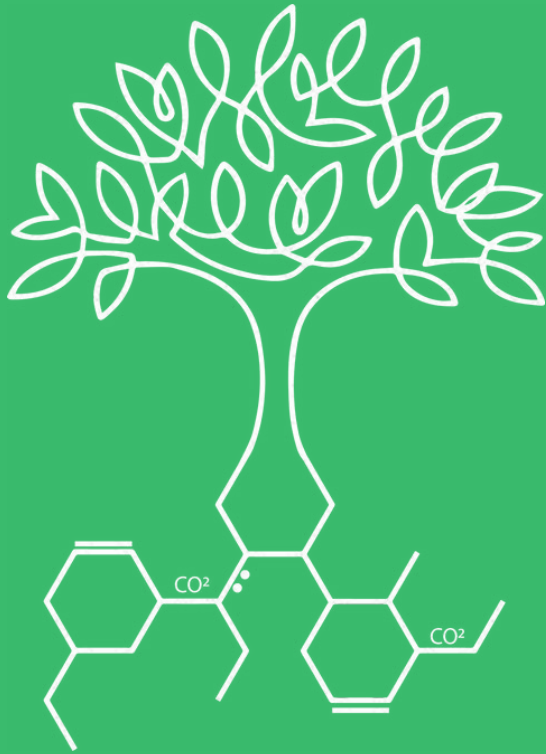

3

Theydon Bois - Epping, Essex

4

Thorney Peterborough - Cambridgeshire

Unlike our competitors, at Time4Trees, your trees are guaranteed to reach full maturity. We plant saplings in our tree nursery, where they are matured for two years. After, they are planted into the ground with the 'stake and surrounds' with a 10-year maintenance plan.

You can advertise your positive contributions to the environment with Time4Trees by planting at our UK sites in the South East of England, with the highest emissions in the UK. Allowing your company to demonstrate the real difference you are making in combatting the climate crisis.

Benefits from a Time4Trees partnership

- All business purchases can be classed as a tax deductible expense.
- Carbon offsetting purchase helps achieve your CSR and ESG goals.
- All our sites are situated in prime locations, meaning your company can visit our sites and create marketing material with complimentary planting days and site tours.
- Biodiversity creation on previously neglected and unused land. shows a realtime difference that your company has made in the UK.

Part 2

T4T Company Purchase Options

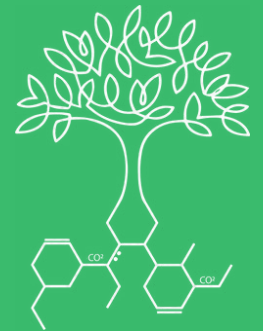

Time4Trees business & Corporate
package.

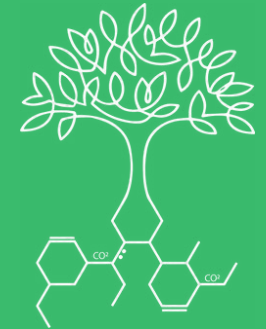

Carbon Offsetting Project

At Time4Trees, your company can become carbon neutral with the click of a button. When you inquire with us, we will give you a free company evaluation and assess how tree planting can be integrated into your plan for carbon neutrality. We'll be able to propose a UK tree planting solution to your sustainability needs within the same week of enquiry.

With our plans, you can offset at your company's convenience, and your order will be processed within the same day!

Client Tree Gifting

At Time4Trees, your company can gift trees to your clients and we will automatically process your order with instant digital packages sent to your clients notifying them of your positive contributions to the climate and planting trees on their behalf.

With our digital welcome package they will automatically receive their certification, GPS coordinates and information on where their exact tree is planted.

Dear << Test Full name >>,
Welcome to your Time4Trees Digital Package

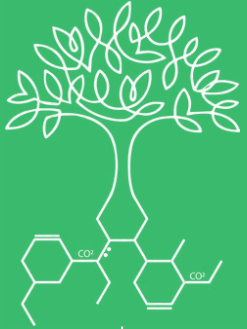

You have been gifted a tree from Ascend Broking Group!

**Ascend Broking Group**
Business Insurance Solutions

As a valued **Ascend customer**, we are pleased to confirm that we have partnered with Time4Trees to plant a tree for every vehicle you insure with us, plus any additional policies.

Ascend broking group are proud to plant trees in the **UK** on your behalf to help save our planet!

Part 3

Included In Your Purchase

Time4Trees business & Corporate
package.

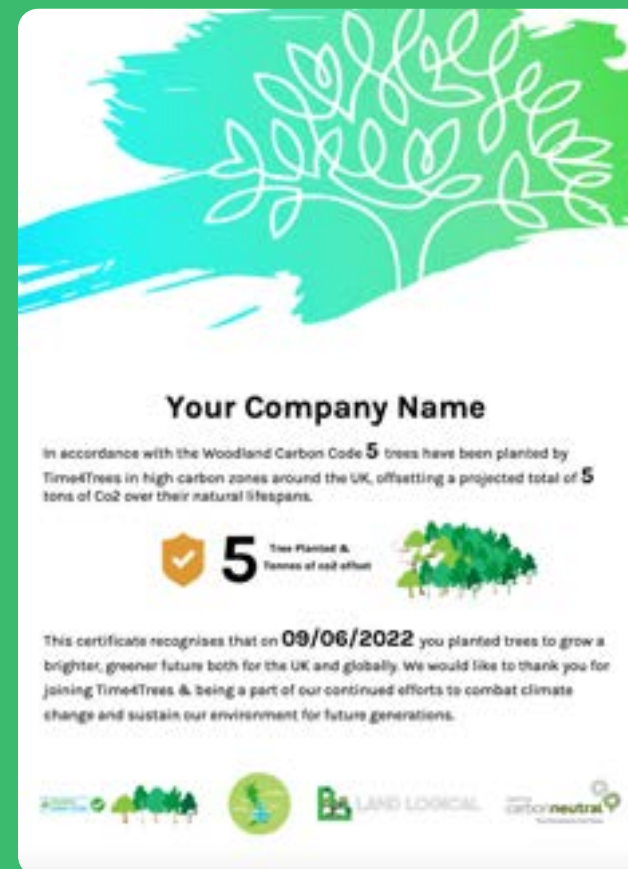

For every tree you purchase we will supply our certification for them and their individual GPS coordinates, all included in our digital welcome package. This package can be personalised for how your company decides to advertise your tree planting.

All trees planted by Time4Trees, are accredited by the Woodland Carbon Code and are affiliated with the Groundwork Trust. This ensures that every tree is planted and registered correctly and therefore guaranteed for 100+ years of life.

Certification and Accreditation

Your Official GPS Coordinates	
51.44544	0.25526236
51.445449	0.25529156
51.445466	0.2553212
51.445484	0.25535084
51.445501	0.25538048

Company Planting Days

At Time4Trees, we offer complimentary company tree planting days on-site at Dartford. This is an excellent opportunity for companies to unite as a team to demonstrate their dedication to the environment and help achieve their CSR goals.

All purchases over 200 trees are eligible for a complimentary tree planting day, where companies can utilise a hands-on approach to combatting climate change through a local solution to a global issue.

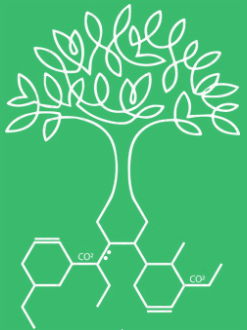

Time4Trees Business & corporate package

Personalised Drone Footage

Our In-house design team will prepare a personalised video for your company through the use of our state-of-the-art drone technology. Each video is unique to every customer and includes details about your project and the real difference your company makes to the environment by planting UK trees in high-emission areas.

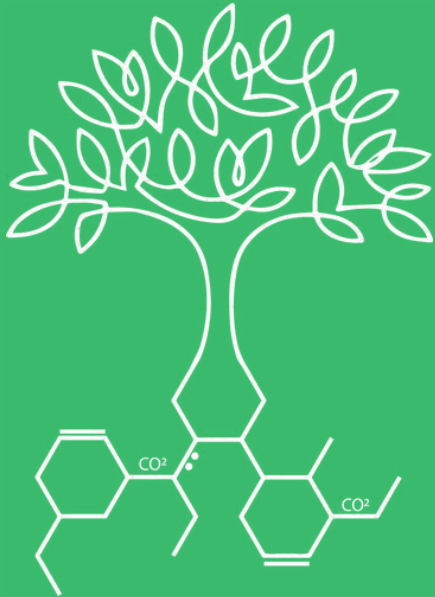

All purchases over 250 trees receive this personalised footage complimentary. Your company has the right to distribute the video through any online platform to share the positive action you are taking in combatting the climate crisis.
